 - Arrival and check-in at the hotel.
 - Orientation session with the mentor: Overview of Los Angeles and its significance in the entertainment industry.
 - Visit to the Hollywood Walk of Fame and TCL Chinese Theatre for historical insights.
 - **Afternoon:**
 - Behind-the-scenes tour of a major Hollywood studio (e.g., Warner Bros. or Universal Studios).
 - Discussion on filmmaking, special effects, and the evolution of the film industry.
 - Interactive Q&A with industry professionals.
 - **Evening:**
 - Group dinner and reflection session.
 - Evening walk around the Sunset Strip to experience the entertainment district.
-

Day 2: Science, Innovation, and the Arts

- **Morning:**
 - Visit to the California Science Center to explore aerospace exhibits and the Space Shuttle Endeavour.
 - Hands-on STEM workshop on space exploration and engineering concepts.

- **Afternoon:**
 - Visit to The Getty Museum to study art history and cultural influences in the region.
 - Discussion on the intersection of art and society.
 - **Evening:**
 - Group discussion and art appreciation activity.
 - Leisure time for students to explore local art scenes.
-

Day 3: Cultural Diversity and Social Impact

- **Morning:**
 - Guided tour of Olvera Street, the birthplace of Los Angeles, to learn about the city's cultural roots.
 - Immersion in Latino heritage through traditional music and cuisine.
 - **Afternoon:**
 - Visit to the Museum of Tolerance to explore human rights issues and social justice initiatives.
 - Reflection and group discussion on social responsibility and diversity.
 - **Evening:**
 - Closing ceremony and certificate distribution.
 - Farewell dinner and departure.
-

Educational Objectives:

1. Understand the role of Los Angeles in the global entertainment industry.
2. Explore advancements in science and technology at major institutions.
3. Appreciate the rich cultural diversity of Los Angeles and its historical roots.
4. Engage in discussions on social responsibility and human rights.

5. Develop a deeper understanding of the intersections between art, media, and technology.
